Hi Shafeda,

There seems to be an error appearing for MSG file types.

[@Rohit Shelar](#), This will need to be fixed by today EOD so this can be in the release. This is a showstopper.

Kind Regards,

Amel Iftikhar

Hi Amel

Can you review and confirm if this is an issue.

Than we can give Mario and Rohit instructions in case we need action urgently.

Thanks Shafeda

Hello Shafeda,

- I have made the required settings on both CAA Pre Production and Production Server's
- Tested for the patient David D and Jayshri has mentioned
- One issue we have is with "msg" file type. We are getting an exception with ASPOSE lib. Myself and [@Rohit Shelar](#) is looking into it.

Thank you

Hi Radhika

This was the Assurance Item Failed by CAA on Friday 18/03. As a Setting was not turned on when the upgrade was done, see your response on the chat as a reminder.

1. **Pre Prod:** you have turned on, please can you ensure this is tested with all file types (upload – only PDF can be uploaded/for all file types to be able to view all files types on the ticket from the browser) before the start of UK time, as CAA will retest tomorrow. Below email have applicants on pre prod where you will be able to check its all working

Radhika Mali Yesterday 07:15

Document upload and viewing fails: Required cellma preferences setting is not configured on the server's which is causing the user to download the mentioned file types

Not limit on answering patient assessment from portal	patient	establishment	Text	If limit is set then patient can answer patient assessment from portal until reach that limit.	0	10 E&E

this is the

correct setting. I have done for pre production server...

Same config needs to be done on CAA Production Server

## 2. Production: can you turn on the relevant setting.

Many thanks

Shafeda
